

CIT 31200 Mid-term Project Planning: The Topic

For my project, I would like to create a website about my cats! I have 5 of them so I believe it would be a great topic to choose and would allow me to fill the pages and website with enough content.

Pages, Content and Topics

Project Topic	Sydnee's (My) Cats
Landing Page Content	Will Contain: <ul style="list-style-type: none">• Header• Footer• Menu bar, Hamburger menu• Home page and content<ul style="list-style-type: none">○ Header/title○ Basic information about my cats and I○ One to a few images of my cats
Content Page 1	Will Contain: <ul style="list-style-type: none">• Menu bar, hamburger menu• Footer• Header/title• Small paragraph explaining the page/flip cards• Flips cards of each cat<ul style="list-style-type: none">○ The front will contain an image of the cat and their name○ The back will contain facts about the cat
Content Page 2	Will Contain: <ul style="list-style-type: none">• Menu bar, hamburger menu• Footer• Header/title• Small paragraph explaining the page• Catalogue of images of my cats<ul style="list-style-type: none">○ Each will contain a short caption○ They will be numbered (needed for the form)○ They may or may not be organized by cats• From the end of the page

	<ul style="list-style-type: none"> ○ The form will ask visitors which was their favorite image, and why ○ May or may not add more questions to the form
Responsiveness	<p>How I will achieve this:</p> <ul style="list-style-type: none"> • The menu will become a hamburger menu at a smaller size • Footer will change size according to screen size • All images and content will resize and move accordingly to screen size <ul style="list-style-type: none"> ○ Flex will be used to achieve this
Professional Finish	<p>How I will achieve this:</p> <ul style="list-style-type: none"> • I will use an appropriate and pleasing color palette • Everything will be organized in a way that makes sense, is pleasing to the eye, and can reformat/resize properly according to screen sizes • Favicons will be used <ul style="list-style-type: none"> ○ I will have at least one for the homepage on the menu ○ I might add one for images ○ Might add more where it makes sense
